From Principal's Desk

Dear Parents, Students and Community Members,

As we step into this new academic year, I extend a heartfelt welcome to each of you. The past few months have been a tapestry woven with learning, growth and collaboration, and I am deeply proud of our students' remarkable achievements both in and out of the classroom.

They say you are born to teach and it must have been like that for me because I know education is the field where I belong. It's not just love for children, it's hope for the future for us. Education is more than the curriculum as we firmly believe in grooming our children with the right values, the right ethics and the right attitude thereby ensuring that they are responsible, competent, honest, humane, enterprising, perceptive and emotionally stronger individuals of tomorrow. We encourage our students to be academically sound and enthusiastic, at the same time we guide them to be involved in as many activities as they possibly can – be it sports, cultural or aesthetics. Participation helps them to discover and unleash their talents, build team spirit and initiate leadership skills.

Parents have perennially partnered with us to fulfill our mission and we are proud of two prevailing modalities – while on one hand the faculty frequently dialogues with the parents, on the other, our teachers never cease to extend their hands beyond the realms of classroom, bonding naturally with the students.

In this newsletter, you will find a glimpse of the vibrant activities and academic milestones that enrich our school community. Our commitment to providing a well-rounded education continues, inspiring and challenging every student. The partnership we share with parents is invaluable in this journey. Our dedicated faculty engages in open dialogue with families, nurturing strong connections with our students.

I invite you to stay actively involved in your child's education by attending school events and collaborating with our staff. Together, we can create a nurturing environment where every student thrives.

Thank you for your unwavering support. Let's embark on a school year filled with growth, discovery, and achievement!

Warm regards,

Yogeshwari Rathore

SALUTE TO THE OLYMPICS

It is that time of year
When people stand and cheer.
Dreams of Olympic gold
Stories will soon be told.
Atheletes give it there all
As the world watches in awe!
Let's support the home team
As they live out their childhood dreams!
So let the games begin:
The world as one, will win!

क्या लिखूँ ?

स्कूल की मैगजीन छप रही है
मुझे मिला समाचार
सोचा मैं भी लिख डालूँ
आर्टिकल दो चार।
कविता लिखूँ कहानी लिखूँ
या फिर कोई लेख
इसी सोच पर मैं बैठी
सिर तकिए पर टेक।
पूछा दीदी ! विषय बताओ
या कोई प्रसंग
जिसे पढ़े मजे से
सब हो जाए दंग।
पर दिमाग हो गया खाली
तब टूटे-फूटे शब्दों में ही
यह कविता लिख डाली।

SUCCESS MANTRA

"It does not depend on what you do,
It depends on how you do!"
Decrease your volume and become dense,
Try something new and make a change,
Try always to accelerate not to retard,
Don't feel shy and try to work hard.
Increase your speed. If you feel it's needed,
Decrease your needs If you want to feel contented in life,
Cover a lot of distance and make a difference,
Don't try to heat because it will not make any sense.
Maximize your velocity and become curious,
Don't become lazy and be fast and focused....

SAVE THE MOTHER EARTH

Lives are dying because it's not clean,
Earth is dying because it's not green,
Earth is our dear mother don't pollute it,
She gives us food and shelter just salute it,
With global warming it's in danger,
Let's save it by becoming a strong ranger,
With dying trees and animals it's in sorrow,
Make green today and green tomorrow,
With melting snow one day it will sink,
How can we save it Just think !
Trees are precious preserve them,
Water is treasure, reserve it,
Grow more trees make mother earth green,
Reduce pollution and make her a queen,

DREAMING OF CHILDHOOD AGAIN

Rays of the light coming through the glass,
flickering memories of the past.
Remembering when I was a child,
those beautiful days I can't define.
I can't define the way it was,
where for all mischief I was the cause.
Remembering that we all were insane,
dreaming of my childhood again and again.
We can see the delight on our face,
as we imagine a special childhood place.
So close to heart and yet so far,
a child's life is like a shining star.
Remembering that we all were insane,
dreaming of my childhood again and again.
Thank you

GREAT IS THE RAIN

Great is the rain
After hot glowing days,
Rain showers the sun rays.
Great is the rain
Rain's silver face around,
It wets the school garden ground.
Great is the rain
Above from the sky rainbow smiles,
Below from the sea fishes glide.
Great is the rain
Rain is everywhere bottom and the top,
By its speed children never stop.

MY SCHOOL

A great building standings
at the top of the clouds in right,
Yes , that's my school
with a shine like a great color white .
Whenever I enter by its door,
I think my knowledge is getting more and more.
The teachers are best and like their best teaching,
they never let our education rest.
from here to there everything is good,
including its healthy and tasty food.
Once I sit in bus, the beauty around me rushed.
Whenever I sit in the bus I always keep one thing in my mind,
that always keep hands inside.
The sports of the school says always be in boast,
and never let your stamina and power loose.
Nothing is bad,no one is sad everything is best,
Let's all promise to never let our school progress rest.

NO FEAR LEFT

When studies feel too hard to bear,
You're filled with doubt and fear.
When school feels tough and your fears arise,
And worries fill your hearts and eyes.
Don't run, just take a breath,
Face your worries, feel their depth.
Stand tall, breath deep, and face the test
With time, you will outshine the rest.
Each fear you meet will fade away,
Soon, no fear will cloud your day.
Each fear you face will soon be gone,
You'll find peace as you move on.

Impact of Bullying in early development years

“No one can heal himself by wounding others.” Not many people understand this saying, what a pity. Bullying is a persuasive issue in many educational environments & events a profound influence on the development trajectory of young children. During these formative years, children are particularly vulnerable to psychological & emotional effects of bullying, which can reverberate through their lives. A child's sense of self worth & identity is still forming in these early development years. It is a time to bound with people around them & learn to put their trust of efforts into personal growth.

The emotional turmoil caused by such experiences often manifests in increased anxiety, depression and a persuasive sense of helplessness.

The impact of bullying extends into academic performance. Children who face bullying often experience difficulties in concentration & learning. This academic decline can create a cycle of failure & further reinforce negative self-perception.

Addressing bullying requires a multi-faceted approach that inclusivity & respect, providing a safe environment where all students can thrive. Educators and parents alike play a critical role in identifying early sign of bullying & interviewing promptly to mitigate its effects. It takes two to make a quarrel to prevent bullying in all its form, it is important of empathy.

In conclusion, the impact of bullying on young children is profound and far reaching. By understanding & addressing these effects, we can work towards creating a nurturing environment that supports healthy development & ensures that every child has the opportunity to flourish.

WHAT MAKES A GOOD LIFE?

What makes a good life?

A healthy heart and a healthy mind?

Probably yes!

As per my guess.

According to science

Good life is having a good conscience

Also great social cohesions

With a pinch of life lessons.

If you crave for happiness

Then let go of your crankiness.

Start on with a positive record

Because life is far beyond.

I won't say discipline is the key.

But life is great when you are impropriety free.

A good life with no failures

Eww, sounds so unfamiliar.

Rule is embarrassing progress, not perfections

Its okay, if you don't attain correction.

Work on making your dreams come true

Whatever you do

Make sure, it makes you happy

And not turning your life scrappy.

Its all about the perspective

It's in your hand to turn the negative to positive

The secret of life is contentment

Being content is human's peace investment

Be someone's hope

Help, if you have the scope

Make other's life alive

Now do you know? What makes a good life!

LIVE TO LOVE

Live to love

rather than love to live

Shun thoughts of getting something from someone, instead , harbour thoughts to give.

Live and let life

And experience that bliss when you unselfishly give.

Live is worth living

This world is worth giving.

Live to give, even your own life

Loving poor, destitute and hopeless

Is worth a blissful strife

So, live to love without greed

Love immensely without bothering about caste & creed.

A FIGHT WITH LIFE

In quiet moments, hearts to pray,
To seek the light, to find the way.
With faith as strong as mountains stand,
We walk with God, hand in hand.
Through trials faced, our spirits grow,
In our divine, we come to know,
That in his grace, we find our peace,
And in his arms all trouble cease.

And sky is filled with glittering stars tonight
I walk on the beach
Where, I am out of reach
I enjoy every moment of solitude
Knowing that the hectic life will be continued.
